

Cisco ISE Upgrade

Scope

Perform an in-place ISE Upgrade for customer's environment.

Maximum Numbers:

- 3x ISE Nodes
- Components: NAC, 802.1x, Guest Wireless
- Testing: up to 5 devices

Benefits/Outcomes

Network Access Control system that is running on latest stable release and able to help provide full coverage and control of access to network resources.

Assumptions

- Customer will provide Tesrex consultants with unmetered and unrestricted administrative access
- Customer will provide all existing documentation pertaining to the platform
- Customer will agree change windows with Tesrex consultants and be responsible for all change control approvals
- Customer will perform necessary connection, service accessibility and any other deemed necessary testing
- It is assumed the upgrade and testing will take place during maximum two changes and take up to 8 hours overall
- All work will be delivered remotely
- Each upgrade will be performed AS-IS; this means no change in configuration will be made unless required to enable the upgrade to advance. This will be highlighted as a customer dependency
- No additional feature sets will be enabled or disabled. We can help with future enablement based on
- The upgrade will be in the same software range and will not include any migrations, for example another vendor to Cisco is not in-scope. This is to remove the complexities with different types of security policies.

Deliverables

- Testing workshop with the customer to identify the testing approach and wireless details
- Perform an assessment of the existing platform
- Produce a test plan
- Deliver a review workshop to highlight any pre-upgrade dependencies, upgrade path, future capabilities available with the new version, testing and timeline
- Carry out the upgrade and test
- Complete testing and update test plan

Cost

£4,735

Optional items

- Additional ISE Node: £1,120
- Creation of Platform Configured-As Documentation: £3,898
- Follow On Health Check: £2,230

► About Tesrex

We're a team of Cisco specialised IT consultants and solution providers based in London. Our goal is to accelerate the adoption of next-generation technologies in the organisations we work with. Everything we do at Tesrex comes down to our ethos; Design. Deliver. Nurture. This core ethos shapes every experience our clients have while working with us.

As a company, our roots first sprouted in San Francisco, USA before we started working in the UK in 2016. Since then we have built a highly-skilled team with diverse knowledge so we can efficiently solve any challenge a customer presents to us and exceed expectations.
