Network Monitoring Trial

LiveAction

Scope

For network monitoring, we advise our customers to use LiveAction's LiveNX. LiveAction provides a single platform for network-wide visibility so you can easily optimise performance wherever incidents happen. We can set up and integrate LiveAction with your network, giving you optimal visibility of your entire business on a Trial Basis, instead of a crafted demo.

Benefits/Outcomes

LiveAction brings a multitude of benefits when deployed. All your network data – flow, packet, WiFi, SNMP, and APIs – will all be unified onto a single platform. This gives you full visibility into applications across multi-vendor, multi-domain, and multi-cloud environments.

With just a few clicks you will be able to pinpoint and troubleshoot problems which could have taken days to find before. Regardless of where they occur, a quick resolution is easily achievable with LiveNX.

Assumptions

- Customer has access to their devices to make non-disruptive configuration changes for

- Customer is able to make the changes as needed for the Trial

- Customer provides the VM resources for the LiveNX OVA

- Customer can provide remote access to the Tesrex engineers for configuration

- Customer dedicates key individuals for training

- Customer is responsible for the removal if all resources related to LiveNX once the trial is completed

Deliverables

- Walk through LiveNX software and VM installation requirement

- Identify up to 40 devices for monitoring

- Remotely configure LiveNX and devices and set up dashboards

- Train the customer team in using the dashboard

- End of trial summary and guidance

- Cover the trial license

Cost

Free

This engagement is a 21 day trial that we will integrate and deploy on your network.

About Tesrex

We're a team of Cisco specialised IT consultants and solution providers based in London. Our goal is to accelerate the adoption of next-generation technologies in the organisations we work with. Everything we do at Tesrex comes down to our ethos; Design. Deliver. Nurture. This core ethos shapes every experience our clients have while working with us.

As a company, our roots first sprouted in San Francisco, USA before we started working in the UK in 2016. Since then we have built a highly-skilled team with diverse knowledge so we can efficiently solve any challenge a customer presents to us and exceed expectations.
